
S-57 APPENDIX B.1
Annex D – INT1 to S-57/52

Edition 1.0

INTRODUCTION

General Appendix B.1 Annex D (INT 1 - ENC) provides a reference for interpreting the many symbols and abbreviations found on International charts into ENC objects and attributes. Users should be aware that only generic objects and attributes interpretations are shown. For more detailed descriptions of objects and attributes users should use the S-57 ENC document links included with each symbol.

(1) Section designation: The letter "I" means International.

(2) Section.

(3) Cross-reference to terms in other sections.

(4) Sub-section

(5) Column 1: Numbering following the International "Chart Specifications of the IHO"

(6) Column 2: International (INT) symbol.

(7) Column 3: Term in the English language.

(8) Column 4: S-52 symbol used in a SENC.

(9) Column 5: S-52 symbol name.

(10) Column 6: Object acronym with S-57 Appendix A Chapter 1 "Object Classes" reference.

(11) Column 7: Generic attribute acronym with S-57 Appendix A Chapter 2 "Attributes" reference. Mandatory attributes are depicted in **bold**. Mandatory attributes which are designated as "at least one of" are depicted in **bold italic**.

(12) Column 8: Generic attribute value. Values are only generally given where a specific category should be used for that object.

(13) Column 9: Geometric primitives (P = point, L = line, A = area).

(14) Column 10: Use of the Object Catalogue ENC. Referenced in S-57 Appendix B.1 Annex A.

(15) Column 11: Comment or link to National encoding requirements.

(16) Column 12: Numbering following the "Chart Specifications of the IHO".
